**About the Department**

Welcome to the Department of Architecture and Planning at Malaviya National Institute of Technology, Jaipur. Architecture is both the process and product of planning, designing and construction. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements. Architecture is a medium of cultural expression displayed using a specific set of principles. These principals are meant to be interpreted so that the culture of a period or a nation can be fully expressed and understood.

**---- Head of Department****Vision**

To retain and promote the department as a regional centre of excellence, and a trend setter in addressing emerging challenges in the profession and research.

**Mission**

1. Holistic planning and design of premises commensurate with the emerging functional requirements.
2. Review of academic practices for enhanced focus on employability and better career prospects.
3. Augmentation and alignment of course content with respect to emerging professional requirements.
