About the Department

Welcome to the Department of Civil Engineering at Malaviya National Institute of Technology, Jaipur. Civil engineering discipline was introduced, at Malaviya National Institute of Technology (then Malaviya Regional Engineering College), Jaipur, in 1965. At the beginning world class laboratories, especially material testing, hydraulics, survey, road material testing, and soil testing laboratories were developed. Later the department was split into two separate departments of Civil Engineering and Structural Engineering. The department offers a four year course leading to the Bachelor's Degree in Civil Engineering with a student intake of 93. It also offers three full time and part time postgraduate courses in Water Resources Engineering, Environmental Engineering and Transportation Engineering.

Majority of the graduates are well placed in India and abroad. Many of them have also gone for higher studies in the country and abroad. Right from its inception, the Department has been doing its best to bring about excellence in academics.

The department is equipped with latest facilities and equipments for extensive training to both the undergraduate and postgraduate students. In addition to that these are also used for numerous research, consultancy and testing works.

Vision Statement

To serve the nation by providing high quality engineering education that enables students to get a profession that can improve the civil infrastructure and social welfare.

Mission Statement

To create enabling environment for excellent teaching, learning and research in order to produce leading entrepreneurs and innovators in the field of civil engineering for sustainable development.
